

5-Day Liver Cleansing Program

2 Days of a Purifying Raw-Food Program and a 3-Day Juice Fast

IMPORTANT NOTICE: It is **HIGHLY** recommended that you complete the 2-week **Colon Cleansing Program** (5-day Colon Detox), using Colon Detox Formulae **#1** and **#2**, and **CONTINUE** taking **#1 & #2**, while completing this Program. Without doing this the toxins from your blood will dump into your liver and then into your colon to be eliminated. If your colon is not working properly the toxins may recycle back into the blood leaving you sicker than before.

See **IMPORTANT TIPS** on for more details on how to maximize your results on the herbal program!

BEGINNERS Drink Program

This is a DETOX. These herbs stimulate your entire biliary and gastro-intestinal system, stimulating and flushing the liver and gallbladder and can also cause your bowels to work more often and more efficiently, regardless of what you eat. But, if you want to get the most out of this DETOX it just makes good common sense not to consume constipating TOXIC FOOD for your liver while you are trying to flush TOXIC WASTE out of your liver. So please do your best to stay away from fatty and greasy junk food that congests your blood and liver, fast food, like dairy and animal foods, stay away from alcohol which overloads your liver, and consume more fresh fruit, vegetables and whole grains. No pressure, but eating more healthy while doing this Detox will help you get the most out of it.

- **You are sick and tired of feeling sick and tired, or you have a serious illness**

ADVANCED Herbal Program

Same as BEGINNERS 7-Step Herbal Program (see beginning). Plus, see IMPORTANT TIPS for more details on how to maximize your results on the herbal program! Advanced participants may also choose to do two, three or even four 5-Day Detox Programs in a row for MAXIMUM RESULTS!

ADVANCED Food & Drink Program

If you want to get the absolute MOST out of this detox that you possibly can, and turn around any dysfunction in your liver, gallbladder and bile duct follow these food program instructions.

DAY 1 (RAW FOOD): Follow the Intermediate Food & Drink Program guidelines, PLUS, do not consume any food this morning. You are drinking a lot of liquid in the morning—water, your Liver Flush Drink, Tea and Tonic, and a Mountain Nutrition nutritional drink—so you will be full. But in the afternoon, KEEP DRINKING! For lunch you can have fresh raw vegetable juices, raw vegetables alone or in salads, sprouts and potassium broth. You may use dressings for your salad and vegetables if you like, using olive oil, avocado, raw apple cider vinegar, lemon juice, garlic, onions, and any herbs and spices. After 6 pm, drink only diluted fruit juices, smoothies, pure water and herbal teas, and eat fruit salads. Exercise daily for one hour.

DAYS 2, 3 & 4 (JUICE FLUSH): Now we begin the three-day Juice Flush. Consume at least one gallon (128 ounces) of liquid a day. That's eight 16-ounce servings a day. If you get hungry, drink more liquid!!! Have diluted vegetable juices, potassium broth, herbal teas and pure water until 6 pm. After 6 pm consume only water, herbal tea and fruit juices. Drink liquids only, NO FOOD!

DAY 5 (RAW FOOD): Your food program will be the same as Day 1. Remember, after three days of Juice Flushing take it easy eating. Chew all your food slowly until it is a liquid pulp. Eat until you are satisfied, but not full. You can always eat more later if you are still hungry

IMPORTANT TIPS!

1. It is best to consume all of the tinctures in this program, finishing the bottles by the end of Day #5. However, if you find that you have some tincture left over when you are done—this is fine, too. Just do your best.
2. A “dropperful” is defined as whatever comes out in the dropper with one squeeze. This means the dropper will actually only look half-full with tonic and does NOT have to be filled to the top to be considered a “dropperful”.
3. Potassium Broth is a GREAT addition to any detox program. See the companion book that came with your detox kit for the Potassium Broth Recipe.
4. Do your best to consume fresh, organic fruit and vegetables while on this program. After all, we are trying to REMOVE toxins, so we don’t want to be putting any food sprayed with herbicides and pesticides back into our bodies.

HOW TO MAKE THE LIVER/GALLBLADDER FLUSH DRINK

Put the following ingredients in a blender and blend on high speed for 1 minute, then DRINK!

- **250ml or 8 ounces of fresh-squeezed, Organic Fruit Juice**

During spring or summer make 8-oz. of an orange or citrus juice combination, and during fall or winter make 8-oz. of an apple, grape or apple/grape combination juice

- **1 to 5 cloves of garlic:**

Use one clove on Day #1, increase to two cloves on Day #2 and keep increasing by one clove until you reach five cloves by Day #5.

NOTE: Don’t chop the garlic, just peel it and throw it in the blender whole.

- **2 cm of fresh, organic Ginger Root**

Do not peel it. The blender will take care of it.

NOTE: Use as many drops as you can comfortably tolerate.

- **1-5 tablespoon(s) of Organic Extra-Virgin Cold-Pressed Olive Oil (start with one and increase DAILY).**

Use one tablespoon on Day #1, increase to two tablespoons on Day #2 and keep increasing by one tablespoon until you reach five tablespoons by Day #5.

- **8 ounces or 250 ml of Distilled or Purified Water**

Distilled, filtered or purified water is the best.

NOTE: It only takes 60 seconds to make this morning drink. Don’t sip it and get it all down in 2 to 3 minutes.

HOW TO MAKE THE DETOX TEA

IMPORTANT: You must start your preparation of the Detox Tea the night BEFORE your first day of the 5-Day LIVER Detox Program!

STEP 1: Put 6 rounded tablespoons of Detox Tea into 1800ml or 60 ounces of distilled water. Be sure to use only stainless steel or glass cookware.

STEP 2: Let the tea sit in the water overnight.

STEP 3: In the morning, heat to a boil, reduce heat and simmer for 15 minute.

STEP 4: Strain the herbs, do not discard them, let the tea cool a bit, but use it hot. This will give you enough tea for your six cups for the entire day.

STEP 5: Put the used herbs back into the pot, add 3 tablespoons of fresh herbs and 60 ounces of distilled water. Let sit overnight and repeat whole process the next morning. Keep adding new herbs to old ones for three days, then discard all herbs and start over.
